

# Asphalt Zipper

# AZ-300B

Work Fast - Save Money!

Open Bit Hatch

Portability - Trailer Included!

Patented Secure Bucket Clamp

Control Box

Scarified Edges and 1" Minus

## Overview

- Cutter Width: 760mm
- Cutting Depth: 0 to 250mm
- Cutting Speed: 2500 sq ft per hr
- Engine: John Deere 99 hp Turbo Diesel
- Weight: Approx 2048 kg
- Host Vehicle: Most Backhoes with 1m Bucket

The AZ-300B has been engineered from the ground up to pack the punch of its bigger brothers, yet it is compact enough to accommodate most backhoes.

It's the power you need to do full-depth reclamation, trenching, patching or almost any application requiring the pulverization of asphalt. You'll quickly appreciate the gutsy 99 hp John Deere (Tier 3 compliant) turbo diesel power plant combined with a state-of-the-art planetary for maximum power right where you want it... the cutter head.

By pulverizing asphalt at the astonishing rate of up to 2500 square feet per hour, the AZ-300B will impact your bottom line just like it does asphalt.
